

GROUNDWORK

I spoke out to Roly the impression I was receiving, that this year there will be difficult weather patterns, so that the sowing, planting and reaping of all crops is effected, which in the long term will cause high price rises, upheaval and discontent with governments.

Water will be in increasingly short supply so that rationing will have to be established. Effectively there will be a famine, with shortages of food for at least two years across large proportions of the earth.

The two year period or more, depends on the Lord's children and what we do regarding Him; either coming to Him with our petitions, bending the knee and asking for mercy, so that He is able to hear our cry and answer our call, or choosing to disregard His word and carry on being the same and doing the same.

Unprecedented favour will fall upon those who believe the Lord and prepare, as glorifying Him increases, resulting in prosperity to anyone who will seek the Kingdom of God and His righteousness with their whole heart.
