

SING A NEW SONG

Deep is calling (crying) out to the deep, for the sake of receiving and hearing A NEW SONG in our hearts and voices, making (creating) beautiful melody to the Lord.

A new day is dawning, and with it will be glorious delights from heaven as we reach out to Him, staying true to the glorious, unchangeable truth of the (spoken, rhema) word of God, that is given in a much holy spirit of love, together with an undeniable gift of the love of the truth, which will rise up as falsehoods also arise within the Body of Christ, to seek out the vulnerable weak and to lead them into a false delusion of believing that 'where we are is where it's at', but it is not.

The truth is forever going onwards, further and deeper into the heart of all truth, with unbounding love beside us and before us, so as not to be able to fall down and give in to the winds of strong, oppressive governments, that will attack from all sides, trying to shake the unshakeable and stop the unstoppable with every conceivable ploy known to the man who is in the Adversary's hand, to bring down by his counterfeit ways and means, the powerful and true army of the Lord (the salvation army), who is able and will, take back this barren land through toil and much hard work in (spiritual) 'forced' labour camps ('Hear my words.' says the Lord) of pressed men and women, actively seeking and provoking the true word of God, to pursue it with all their might, to the glory of the living God.
